

Figure 1 consists of 12 bar charts, each representing a different category. The x-axis for all charts is 'Age' with categories: 18-24, 25-34, 35-44, 45-54, 55-64, and 65+. The y-axis is 'Percentage' ranging from 0 to 100. The categories are: 1. Most important reason for leaving home, 2. Most important reason for staying home, 3. Most important reason for leaving home, 4. Most important reason for staying home, 5. Most important reason for leaving home, 6. Most important reason for staying home, 7. Most important reason for leaving home, 8. Most important reason for staying home, 9. Most important reason for leaving home, 10. Most important reason for staying home, 11. Most important reason for leaving home, 12. Most important reason for staying home. The charts show varying trends across age groups, with some categories showing a clear upward or downward trend as age increases.
